Subject: [External] Docket No. 2020-229-E 3/23 Hearing Registration

Dear South Carolina PSC,

I am very distressed by Dominion Energy's attempt in Docket # 2020-229E hearing to limit our energy choices by adding a metering tariff which would substantially impact customer savings. This plan puts a high fixed charge on rooftop solar customers, charges more for those of us who have more panels, and gives consumers fewer credits when their solar systems are putting power back on the grid for other customers to use.

We are reaching a critical moment in this country. Solar and wind energy are the future and SC is blessed with more than adequate resources to move us all to a more environmentally friendly and sustainable power system.

Do NOT allow Dominion Energy to cost SC jobs in solar energy with their short-sighted plans. Say NO to Dominion Energy.

Sincerely,
Pamela Reese

Charleston, SC
